

KONNECT™ Office Phone System

- KONNECT™ delivers the best balance of features:
 - The reliability of analog landlines for your core business
 - Strong features; no cost or complexity of a PBX/server
 - Access to lower-cost VoIP and SIP services PLUS:
 - No high, monthly fees for a hosted VoIP service
 - No risk of losing all service if your Internet connection goes down

KONNECT™ Features

- Voicemail & Auto Attendant
- Blind & Attended transfer
- Voicemail to email
- 3-digit dial between sites
- Paging to one or all phones
- 3-way conference calling
- Group Extensions (ring groups)
- Easy multi-site operation
- And many more.....

Easy Installation

Workgroup Key

Workgroup Key

You must enter the same workgroup key in each of the phones that will be part of your phone system. Your workgroup key must be:

- Between 8 and 16 characters long
- Kept secret to prevent unauthorized access to your phone system
- Something that is not easily guessed

Example: 34piNkdUcks

Reminder: The Workgroup Key is case sensitive.

- A simple wizard helps users get up and running in a few minutes using their web browser
- Additional personalization is done through the web browser
- Watch the [“Out-of-box” video](#) to see a phone setup from start to finish.

Built-in local web management

- Users access all features and settings via their web browser
 - View all system extensions, add general or group extensions
 - Configure feature keys
 - Add or edit phone lines
 - Add names and numbers to their phone's directory
 - Change Auto Attendant or voicemail settings

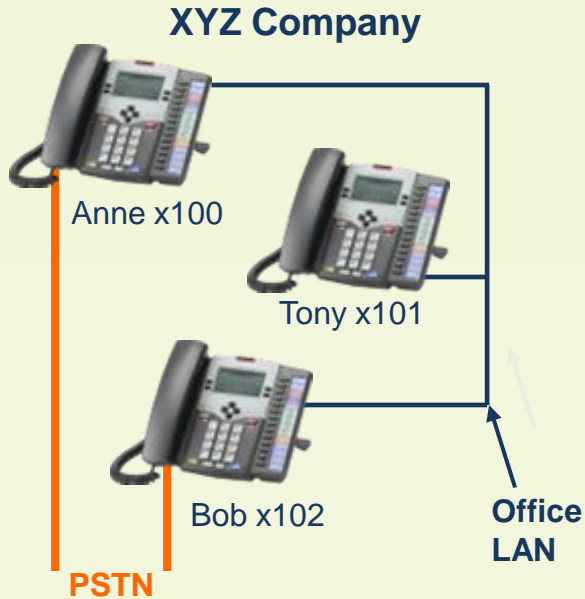

The screenshot displays the AKSYS NETWORKS web management interface. At the top, the logo is on the left, and the user is logged in as 'Administrator | User' with the name 'Mike' and extension 'x102'. A navigation menu includes 'Home | Directory | Feature Keys | Extensions | Phone Lines | VoIP Accounts | System | Media | Users'. The main content area is titled 'Extensions' and is divided into two sections: 'My Extension' and 'Local System Extensions'. Each section contains a table with columns for 'Extension', 'Name', 'Status', and 'Comment'.

My Extension			
Extension	Name	Status	Comment
x102	Mike	Available	Mike's desk with TELUS line

Local System Extensions			
Extension	Name	Status	Comment
x101	Martin	Available	
x105	Michael Zhang	Available	
x108	Mandeep	Available	
x110	Jesse Patching	Available	

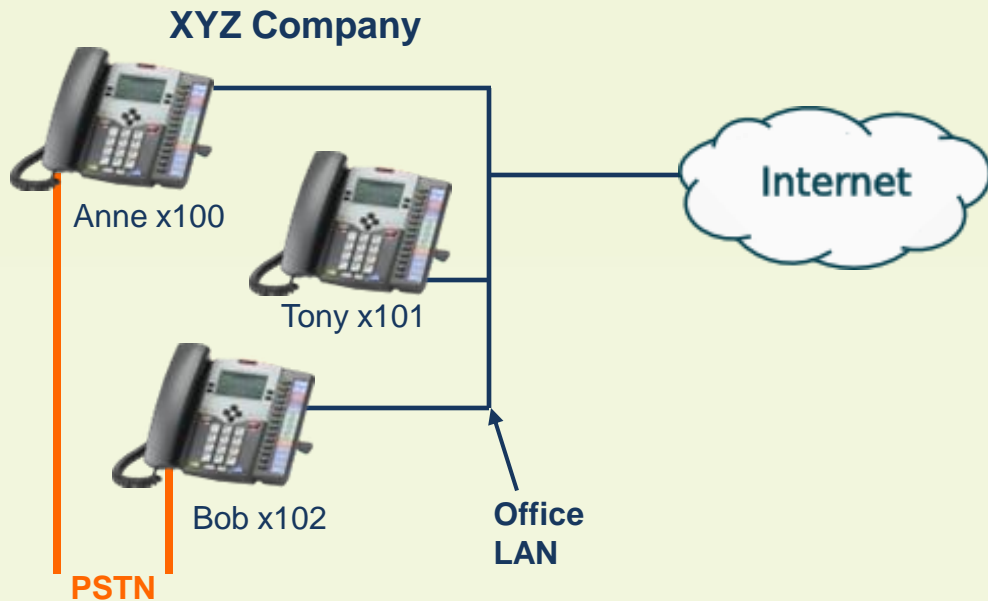

Scenario 1 – Standalone Telephone System

- **KONNECT™ Office Phone System**
 - No PBX, Server, Hosted Service or Internet Connection required
 - Phones share attached PSTN lines across the LAN
 - System can grow from 1 up to 30 phones with no software or hardware upgrades – just add phones as needed

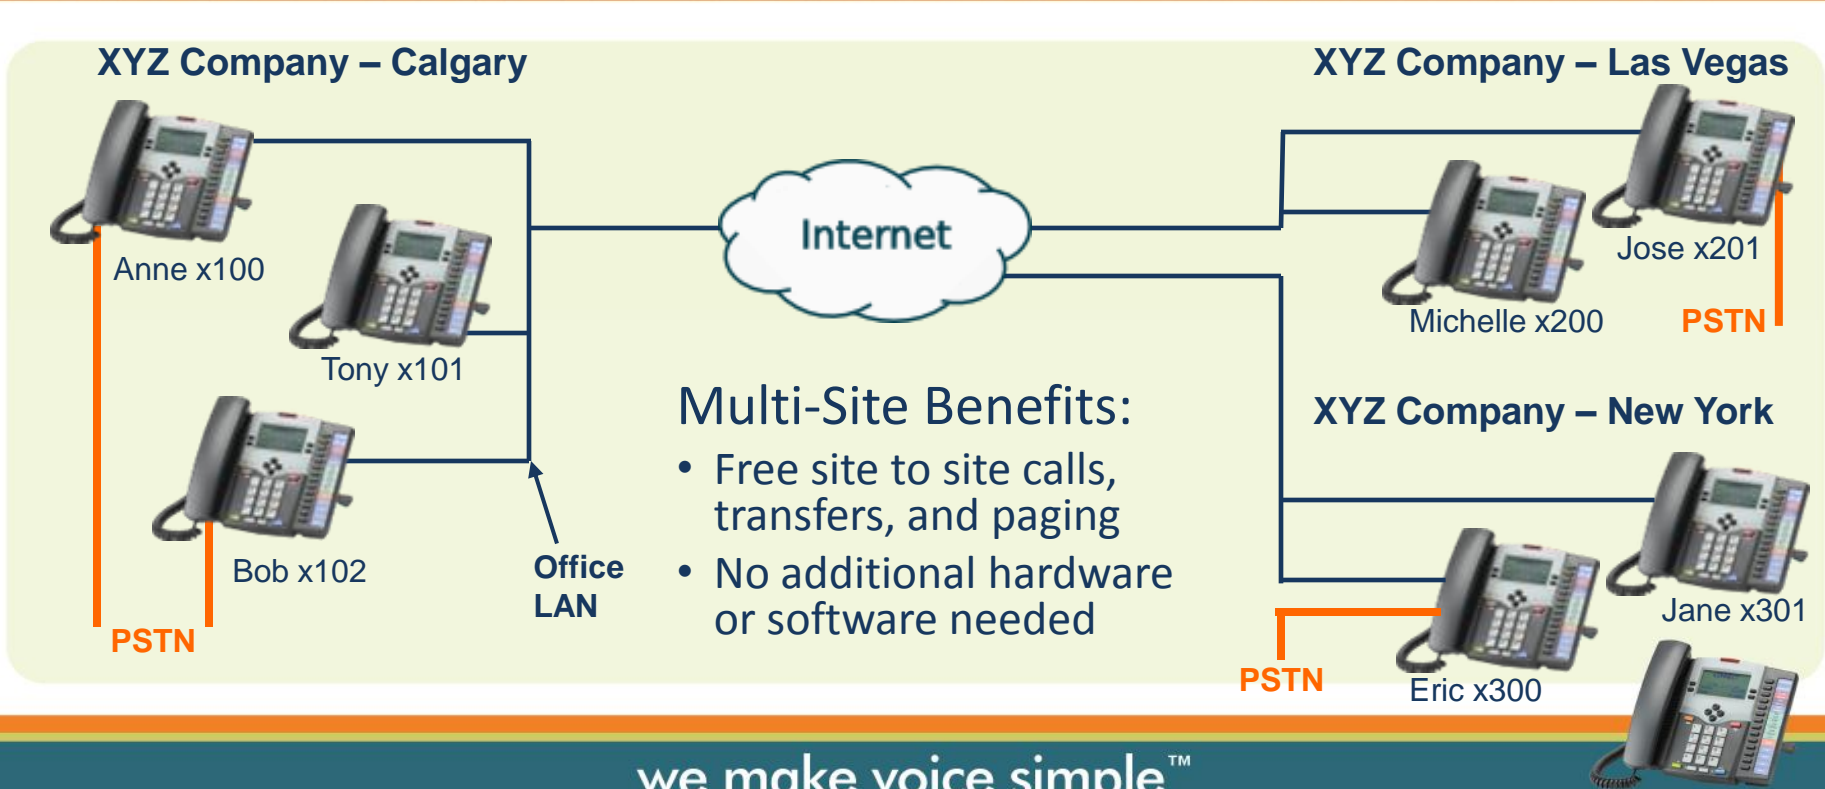

Scenario 2 – Add VoIP & Internet

- Added Value:
 - Reduce costs - use KONNECT™ IP long distance service
 - Choose to send copies of voicemail messages to your email
 - Reduce costs – have fewer analog lines by shifting some outbound calls to IP

Scenario 3 – Multi-site System

Benefits

- You can use KONNECT™ as a stand-alone solution or run it across multiple locations while leveraging VoIP services
- Easy to install, use, and maintain
- Works with regular landlines, yet can take advantage of VoIP Services
- Scalability from single SOHO user to 30 users
 - Now able to scale beyond 30 users with an Asterisk-based PBX

Authorized Reseller Program

- The KONNECT™ Office Phone System Authorized Reseller program is designed to help you sell and support the platform easily and effectively and provides:
 - Sales Tools and VAR Portal
 - Product Training and Marketing Materials
 - Pre-qualified leads & Reseller Locator.
 - Demo Kit
 - Tier 2 Support

Summary

- We have designed a simple Authorized Reseller program to help you sell the KONNECT™ Office Phone System
- We believe KONNECT™ is unique in the market in it's cost structure and feature set. Partners serving the Small & Medium business market can be very successful with the solution.
